

Spirit of America Foundation

1402.21- Spirit of America Youth, Family and Community Boating Safety Education Programs \$175,000

Spirit of America Foundation provides America's Premier Youth Boating Education Programs throughout our country. Extremely diverse in its traditional curriculum, which is based on State, National and STEM education standards, we mandate the presentation of state boating education courses, drowning prevention and equipment awareness and hands--on education in sail, paddle, power, personal watercraft and large vessel. We believe in "No Child Left at the Dock"© through our Golden Eagle and Passport Programs, encouraging additional community boating education programs bringing families back to the water with recognizable beneficial outcomes for the advancement of water--based recreational activities and the marine industry. Future Boaters, Future Business.
