Summary:

NASBLA seeks a grant to partner with and support the states, the U.S. Coast Guard and the recreational boating safety (RBS) community in standardizing state recreational boating safety statutes, regulations and policies. NASBLA seeks to accomplish this by aligning those interests with activities in three interrelated areas in which the association has demonstrated proficiency:

- **Model Best Practices and Encourage Uniformity:** Develop or update model state boating safety policies, standards, and best practices, and guidance for their administration and enforcement.
- **Inform:** Effectively and continuously communicate those model policies, programs, strategies, standards, and best practices to the states and other partners in the recreational boating community.
- **Convene and Collaborate:** Provide hands-on coordination of state efforts and establish or maintain cooperative environments where state officials can discuss issues, resolutions, policies, and best practices, and improve their management of the RBS programs.
